Half Day Seminar

SPECIFYING CONCRETE TO
(EN 206 AND BS 8500)
Jointly Organized By Singapore Concrete Institute and BCA Academy

Date: 23rd June 2010
Venue: BCA Academy, 200 Braddell Road, Singapore 579700
Speaker: Professor Ravindra K Dhir, Division of Civil Engineering, Faculty of Engineering and Physical Sciences, University of Dundee

Sponsored by: WAK Technologies Pte Ltd

Jointly Organized By Singapore Concrete Institute and BCA Academy
3 PDU Points Awarded and 50 participants were attended this Seminar

One Day Training Course

QUALITY MANAGEMENT
(FOR READY-MIX CONCRETE)
Jointly Organized By Singapore Concrete Institute and BCA Academy

Date: 07th July 2010
Venue: BCA Academy, 200 Braddell Road, Singapore 579700
Speaker: Jeff Dudden

About Speaker: Jeff Dudden has had a long career specialising in the technology, construction, production and certification of construction materials.

7 PDU Points Awarded and 16 participants attended this Seminar
Two Days Workshop

QUALITY MANAGEMENT
(FOR READY-MIX CONCRETE)
Jointly Organized By Singapore Concrete Institute and BCA Academy

Sponsored by:

WAK Technologies Pte Ltd

Date: 8th and 9th July 2010
Venue: BCA Academy, 200 Braddell Road, Singapore 579700
Speaker: Tony Binns and Jeff Dudden
14 PDU Points Awarded and 20 participants attended this Seminar

SCI Book Prize 2010 presentation at Nanyang Technological University
Singapore Concrete Institute`s special session dedicated to Prof Gary Ong at the 35th Our World in Concrete and Structures Conference.

Four papers were delivered:
1) Monitoring hydration of concrete with piezoelectric transducers
   Authors: Sabet Divsholi Bahador* and Yang Yaowen
2) Study on ultra high performance-self compacting concrete (UHP-SCC) and its ultra high-rise pumping technology
   Authors: N Q Feng, H W Ye, G R Gu, J H Zhang, L B Xu, B Yu, J P Lu and S Wijaya*
3) Environmentally friendly pervious concrete for sustainable construction
   Authors: R Sri Ravindrarajah* and A Yukari
4) Effect of photocatalyst TiO2 on workability, strength, and self - cleaning efficiency of mortars for applications in tropical environment
   Authors: M H Zhang, D Tanadi and Wei Li*

Singapore Concrete Institute sponsored the SCI Award in this year conference which was presented to Yusuke AOKI for his original paper titled “Chloride ion concentration on the discoloration boundary produced by spraying AgNO3 solution”

BCA Academy, SCI and ACI(SC) are currently running the third intake for the Certificate in Concrete Technology course for technical personnel in Ready-Mix-Concrete industries.
One Day Seminar

Concrete NDT Inspection using GSSI GPR

Singapore Concrete Institute (SCI), Geophysical Survey Systems Inc (GSSI) and Sea and Land Technologies Pte Ltd (SALT) jointly organized the technical seminar on.

Date: Tuesday, 12th of October 2010
Venue: Nanyang Technological University, Nanyang Executive centre
Speaker: Robert Parrillo, Geophysical Survey Systems, Inc,
70 participants were attended this event.

Singapore Concrete Institute supported SALVO Global’s

Finance & Cost Control for Engineers
(Training Course)

Date 18th & 19th October 2010,
The intermediate course was one among the many best attended SALVO courses; it was designed to provide insight into how businesses are financed and how finances are managed. The participants availed of the opportunity to learn from an internal expert from the Middle East.
The course encompassed two days of learning on identifying and avoiding waste, understand how an annual budgeting cycle works, how to make the most of assets, how to increase productivity, etc. Engineering and technical professionals, who attended the course, were able to take back to their organization an invaluable knowledge and skills in managing financials of engineering projects.
The participants are confident that their new found finance skills shall help to enhance their role in business and enable them to participate in financial decision making since a better understanding of the financial aspects of engineering proposals are gained.

Participant feedback was very positive and the course proved to be a very valuable learning experience.
One Day Seminar

Japan Concrete Institute

Singapore Concrete Institute and Japan Concrete Institute are Co-organizing

“Practical Guideline for Investigation, Repair and Strengthening of Cracked Concrete Structures”

Proposed Date: 8th March 2011
Look Out for SCI Seminar Flyer!

Speakers

Prof. Nobuaki Otsuki, Tokyo Institute of Technology
Associate Prof. Kei-ichi Imamoto, Tokyo University of Science
Prof. Makoto Hisada, Tohoku University

Tentative Seminar Topics

• Procedure of Investigation, Repair and Strengthening of Cracked Concrete
• Investigation of Cracked Concrete
• Cause Estimation of Cracks based on Investigation
• Evaluation of Cracked Concrete
• Judgment on the Necessity of Repair and Strengthening
• Repair and Strengthening Methods

SCI is the Endorser of

Bridge Tech Asia 2010

Date:
November 29-30 & December 1-2, 2010
Venue:
InterContinental Shanghai Pudong Hotel

Technology Outlines a Blueprint for Future Bridges
SCI Accreditation Schemes

Waterproofing Accreditation Scheme
Singapore Concrete Institute’s Accreditation Scheme for Waterproofing Specialist Contractors was launched in September 2004. The aim of this scheme is to ensure minimum competency and raise the capability of waterproofing specialist contractors serving the construction industry in the longer term. It also provides recognition to contractors who are committed to deliver quality works. This scheme is managed by the Singapore Concrete Institute (SCI) as part of the effort to promote greater self-regulation by the industry.

The accreditation criteria were developed jointly by the SCI and Building and Construction Authority (BCA) with inputs from Waterproofing specialists and the Waterproofing Trade Association. Real Estate Developers’ Association of Singapore (REDAS) had given their support on the scheme and would encourage its members to specify the use of accredited contractors for their projects.

Accreditation Grading And Accreditation Process
There are three categories of grading under the accreditation; they are W1, W2 and W3. Waterproofing specialist contractors will be assessed using the accreditation criteria during the accreditation audit. Subsequently, the accredited contractors will be assessed annually for compliance in order to retain their grading.

Accreditation Criteria
The accreditation criteria are based on three main areas. They are:
• Financial & Track Records
• Human Resources
• In-house Quality Management System

Benefits of Accreditation
The benefits of the scheme include:
• To recognise contractors who are committed to deliver quality waterproofing works, the Building and Construction Authority (BCA) has agreed to award full points for the in-process check of internal wet area waterproofing for projects assessed under CONQUAS, if the waterproofing work is carried out by a SCI waterproofing accredited firm. On-site verification is not required.
• This will certainly add value to the SCI Accreditation Scheme as main contractors will be encouraged to engage accredited firms to carry out waterproofing works for their projects.
• Improved marketability and competitiveness
• Supported by REDAS
• Enhanced public image of firms

Precaster Accreditation Scheme

Background
The Singapore Concrete Institute’s Precaster Accreditation Scheme was launched on 1st January 2007. The scheme aims to improve the quality and productivity of precasters serving the construction industry. It also provides recognition to precasters who are committed to quality and safety of the production plant and products. The scheme is open to local and overseas precasters which have their fabrication yard located outside Singapore. This scheme is managed by the Singapore Concrete Institute (SCI) as part of the effort to promote greater self-regulation by the industry. The accreditation criteria were developed jointly by the SCI and the Building and Construction Authority (BCA) with inputs from the precasters.

Accreditation Categories & Criteria
There will be three Categories of Accreditation:

Category PC1
Precaster that has the financial, human resources, plant and design capabilities to fabricate Structural Building and Structural Civil Engineering Elements of more than or equal to $30 million in contract value for the past 3 years.

Category PC2
Precaster that has the financial, human resources, plant and design capabilities to fabricate Structural Building and Structural Civil Engineering Elements of more than or equal to $5 million but less than $30 million in contract value for the past 3 years.

Category PC3
Precaster that has the financial, human resources, plant and design capabilities to fabricate Non-Structural Building and Non-Structural Civil Engineering Elements.

Definition
1. Structural Building and Structural Civil Engineering Elements shall include but not limited to internal partition wall, cladding, sun breaker, refuse chute, roofing slab, interlocking block/paver, manhole chamber ring, RC cover for sewer manhole, U-drain.
2. Non-Structural Building and Non-Structural Civil Engineering Elements shall include but not limited to internal partition wall, cladding, staircase, balcony, parapet wall, gable end wall, faade (without beam), water tank, prefabricated bathroom, road viaduct components, MRT and LRT viaduct components, pedestrian overhead bridge components, deep sewerage tunnel components, MRT tunnel components, RC pile, spun pile, box culvert, sewerage tunnel, drainage tunnel.

Precaster Accredited Firms

SCI Memberships

GROUP MEMBERS shall be corporate bodies or organizations acceptable to the Board of Directors and engaged in or concerned with any business relating to concrete technology. Each Group Member shall be represented by one nominee.

Members Benefits
1 $250 worth of coupons will be given to Group Members upon joining. All the coupons can be used to redeem fees of courses and workshops conducted by SCI (up to 50% of registration fee) and up to a maximum of $150 can be used to pay for the next membership renewal. The coupons will be valid for 1 year from date of issue. Join NOW to take advantage of this special promotion - valid for a limited period only!
2 Put your company logo in the Group Member page and useful link.
3 Put the link of your company website in the Group Member page and useful link Page.
4 Full access to all the Technical reports, Journal papers on SCI website.
5 Access to read the books and some selected complete projects on SCI website online.
6 Subscription to SCI E-newsletter
7 Advertise your Job Position on our website
8 A certificate will be issued to acknowledge your group membership.
9 Free standard listing in SCI concretus directory
10 Lots of other attractive benefits are awaiting for you, please join us today to enjoy all these benefits.

Membership Rates
$550 per annum

ORDINARY MEMBERS shall be persons whom the Board of Directors consider to be professionally qualified in fields related to concrete technology.

Members Benefits
1 Full access to all the Technical reports, Journal papers on SCI website.
2 Access to read the books and some selected complete project on SCI web site online.
3 Subscription to SCI E-newsletter
4 A certificate will be issued to acknowledge your ordinary membership.
5 Lots of other attractive benefits are awaiting for you, please join us today to enjoy all these benefits.

Membership Rates
$40 per annum

ASSOCIATE MEMBERS shall be persons who are concerned with and interested in concrete technology, and are acceptable to the Board of Directors.

Members Benefits
1 Full access to all the Technical reports, Journal papers on SCI website.
2 Access to read the books and some selected complete project on SCI web site online.
3 Subscription to SCI E-newsletter
4 A certificate will be issued to acknowledge your ordinary membership.
5 Lots of other attractive benefits are awaiting for you, please join us today to enjoy all these benefits.

SCI Directory Vol 2 – No 1, Nov 2010
Syscon, providing the best quality in pre-cast components to Singapore for over 30 years

Syscon has been in the Pre-cast business for more than three decades and will always need new talented people to keep the company fresh and dynamic. We are currently looking for several positions to fill. We look for individuals with valid work experience in their specialty, team-spirit and the drive to constantly improve themselves. Please contact Iris Tay at iris.tay@syscon.com.sg for details.

Current Job Positions available

Accountant:
- Minimum qualification: Bachelor’s Degree in Accounting/ Finance or equivalent
- 1-2 years experience in the field
- Proficient in the fundamental cost accounting principles and practices

Production Engineer:
- Minimum qualification: Diploma in Civil / Structural Engineering or NCCS
- Implementing In-house Quality Control Programs
- Able to efficiently match Housing Development Board’s requirements
- Able to monitor production of pre-cast products

Project Engineer:
- Minimum qualification: Bachelor’s Degree in Civil / Structural Engineering
- Must be Singaporean or Singapore PR (Permanent Resident)
- Able to work well with Senior Project Engineer
- Able to coordinate projects with Main Contractor and Production Team
